Shower Fun for Everyone

hansgrohe

Croma® 100

More Shower Fun for all of us

Big, beautiful and versatile – that is how showers should be these days. This is confirmed by millions of shower fans world-wide: the larger the spray disc, the greater the shower fun! We designed Croma 100 to deliver a wide, soft rain shower. With its clean design, ergonomic handle and flat shower head it also goes perfectly with any bathroom – no matter what your personal design preference.

More size – the large shower head with a diameter of 100 mm distributes the water much more generously on your skin.

More design – with its clean, timeless shape, the Croma 100 blends perfectly into any bathroom.

More function – thanks to a variety of spray modes, the Croma 100 matches even the most diverse showering styles.

Unica® Reno Lift

The height adjustable overhead shower for any bathroom

A downpour from high above – more and more people want to experience this natural shower pleasure. With Unica'Reno Lift, this desire is easily fulfilled. This new shower system is as easy to install as a conventional shower bar and even fits existing drill holes. And now the best part: within seconds, the Unica'Reno Lift transforms the Croma 100 hand shower into a large overhead shower. Thanks to the lift function, the shower bar can be adjusted by up to 30 cm to match your individual body height.

Unica® Reno Lift Set

Lift function

The height of the overhead shower is adjusted simply by sliding the shower bar up and down. Therefore, smaller people can always reach the hand shower – even in its highest position.

Overhead shower function

The curved shower arm provides the Croma 100 hand shower with a reach greater than 40 cm. For genuine shower pleasure – directly from above.

Hand shower function

Hooked into the shower support, the Croma 100 serves as a classical hand shower. You can effortlessly change between the two positions of the hand shower.

Renovation function

Ideal for retro-fitting without drilling! Thanks to the slideable holders, the Unica'Reno Lift can be simply mounted onto the existing drill holes.

Croma® 100 Showerpipe

Wellness showers with a brilliant look

A warm shower rain that enrobes your entire body. Millions of water drops that caress your skin at a constant water temperature – what could provide a better start to the day? The Croma 100 Showerpipe with integrated thermostat knows how to pamper you from head to toe. With its new slim and refreshing design, the Showerpipe fits into any bathroom – whether entirely new or renovated. Thanks to the innovative shower arm and the intelligent water-conducting shower bar system, the Showerpipe can be easily installed even in small shower cabins. You can simply mount it onto the fittings of your old faucet.

Croma® 100 Showerpipe

Shower Fun XXL

The 160 mm overhead shower projects an exceptionally wide shower rain. The gleaming, chrome-covered spray disc suggests the highest quality.

QuickClean anti-limescale function

The elastic silicon spray nozzles drastically reduce limescale deposit. And if limescale does adhere, it can easily be rubbed away.

Flexible shower adjustment

With its adjustable Vario spray and a variable spray angle, the Croma 100 Multi hand shower can be adapted to the most individual shower preferences.

Exceptional comfort

Temperature adjustment to the exact degree, reliable hot water restriction and integrated diversion from hand to overhead shower – the slim thermostat offers a maximum in comfort and safety.

Crometta® 85

A quality shower experience

The new Crometta 85 has everything you need for a great showering experience: superior functions, attractive spray modes and the unmistakable quality of a genuine Hansgrohe brand shower. With its discreet design it is ideally suited for an easy exchange or even a quick bathroom renovation.

Crometta® 85 Multi

3 Spray modes

By turning the spray disc, you can choose between three different spray modes.

Normal

Under this gently tingling shower spray, showering is fun for everyone.

Massage

Simply shower your tense muscles away - effortlessly with the pulsating massage spray.

Soft

Ideal for washing your hair or for hot-cold treatments: a softly flowing spray enriched with air.

Crometta® 85 Vario

2 Spray modes

By turning the spray disc, you can choose between two different spray modes.

Normal

Under this gently tingling shower spray, showering is fun for everyone.

Massage

Refresh, invigorate, enliven - this stimulating massage spray lifts your spirits high.

Crometta® 85 Green

1 Spray mode

Air is drawn in through the hole in the middle of the spray disc and added to the water in the shower jet.

EcoSmart 6 l/min

Water-saving Normal spray: reduces water consumption by up to 60 % while delivering a strong, invigorating jet.

QuickClean

The anti-limescale function QuickClean is integrated into all three models leaving no chance for limescale build-up. Limescale can easily be rubbed off the elastic silicon jets.

Crometta® 85 Shower Sets

The shower solution that fits anywhere

The new, Unica' Crometta wall bar matches the Crometta 85 in form and function. As a set, they provide unlimited shower pleasure. The slim wall bar is equipped with a fully chromed shower support, which makes both height and angle adjustment extremely easy. With just one simple movement, the hand shower can be positioned to direct the spray either directly or diagonally from above. Thanks to its discreet design, the shower set can easily be integrated into any bathroom.

Comfort zone

The innovative positioning system makes it easy to adjust the spray angle of the hand shower – even with soapy hands.

Fully chromed shower support

Thanks to the fully chromed metal cap, the shower support is particularly cleaner-resistant. Moreover, since the chrome surface never comes into contact with the shower head, it is impossible to damage the shower holder even through very frequent use – making it extremely durable.

Green Water

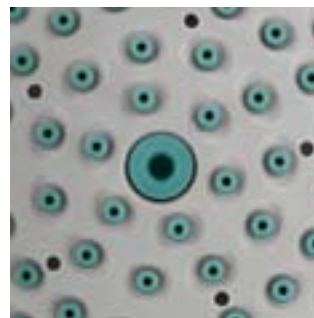

EcoSmart – Saving water without sacrificing comfort

Environmental protection has for a long time been an inherent part of Hansgrohe’s business philosophy. In addition to the careful use of resources and an environmentally sensitive production process, our efforts are particularly focused on saving water. We develop showers which provide a voluminous, wide spray even at reduced water consumption. The specially developed, water-saving Crometta 85 Green accelerates the water by enriching it with air. Despite the reduced consumption of only 6 litres of water per minute, it delivers an invigorating shower jet with noticeably higher volume.

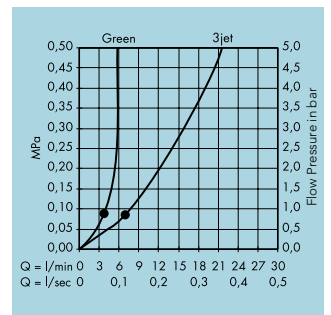

Crometta® 85 Green
Hand shower with water-saving
Normal spray 6 l/min

Mixing with air

Air is drawn in through an opening in the middle of the spray disc and mixed with water in the shower head. Part of the water is replaced by air, accelerating the flow.

Water consumption

With the EcoSmart function you can reduce water consumption by up to 60 % with little sacrifice in comfort.

Spray intensity without air

Conventional shower spray without air is significantly lower and therefore less powerful.

Spray intensity with air

Shower spray accelerated by air gains not only in intensity but also in width.
